Purpose and Use of Directory

This Directory is published in order that members of PHI ALPHA DELTA LAW FRATERNITY may easily accomplish certain purposes of the Fraternity, namely, the establishment of a widespread exchange for the interchange of business, information, and matters of common interest to its members; the promotion of social and intellectual intercourse among its members and the development of fraternal and brotherly sentiments and mutual helpfulness.

All means for ascertaining the correct information on individual members have been employed. Nearly two years ago each Chapter was requested to take steps to get its alumni address list up to date. These lists were forwarded to the General Secretary, who from information found in past directories, the general roster of the fraternity and information furnished by the individual chapters, completed a card index of all members. A questionnaire calling for certain information was sent to each member at the address appearing on his card. Many members neglected to fill out and return their questionnaires and a large number of the questionnaires never reached the individual because of incorrect address. Lists of those members who could not be located were prepared and sent to each Chapter and various alumni and published in the "Quarterly" with the hope that the addresses might be corrected. By these methods, many members were located and accurate information obtained.

It has been the object of the compiler to have the data contained in the Directory as accurate as it could possibly be made, and to the end that all who use the Directory may have the benefit of all information at the hands of the compiler, a system indicating the value of the data contained therein is employed.

The Directory is divided into two main subdivisions, an alphabetical and geographical.

The alphabetical gives the name, residence address (if such was available and if not, then the business address), name of Chapter, and date of initiation. If the member is an honorary member, it is so indicated in the alphabetical subdivision. If an (X) or (?) appears following the address, the date recorded indicates that of graduation; if no symbols appear, the date recorded is that of initiation.

The geographical subdivision contains the names of the States in alphabetical order, the names of each City in each State in alphabetical order, and the names of all members, listed alphabetically, in each particular City. This subdivision gives the name, business address (if such was available, and if not then the residence address), the age of the individual, name of Chapter and that branch of the law in which the particular member specializes, or if not practicing, then the type of occupation he is engaged in. In the event that a member did not return a questionnaire, then information as to age and occupation was not available. Following the states, are the foreign countries and territories outside the United States listed in alphabetical order.

In the back of the Directory are thirty blank pages to be used in the future in the manner described hereafter. Whenever a member changes his address, he should notify the Supreme Historian of the fraternity in order that the Historian may make a record of the change. The Directory is the same size as the "Quarterly" and each time the "Quarterly" is published, the Historian will make up a miniature directory containing all changes of address and the addresses of new members and graduates. The holder of a Directory who is also a subscriber to the "Quarterly" then need only tear out the lists published in the "Quarterly" and paste them in the back of his Directory on the blank pages provided therefor and he has an up-to-date Directory. It behooves every member, therefore, to keep the Supreme Historian informed as to any change in his address. Any errors in this Directory may be corrected in the same manner.

A key to the Directory appears on the following page.

Respectfully submitted,

DWIGHT H. GREEN,

Supreme Historian.

KEY TO ALPHABETICAL INDEX

* Honorary member.

- (X) Indicates that address is probably correct but that information was not furnished by the individual on a questionnaire.
- (?) Indicates that mail addressed at the address given may or may not reach the individual, the address having been obtained from doubtful information.

In the event that no symbols appear after the address given a member, the information can be relied on as being absolutely correct, it being supplied by the individual on a questionnaire returned by him.

KEY TO GEOGRAPHICAL INDEX

- (X) Indicates same as in alphabetical.
- (?) Indicates same as in alphabetical.

Numerals appearing after chapter constitute age of individual. In the event that member did not return a questionnaire, information as to age and occupation was not available.

Where no symbols appear, the information has the same value as that given in alphabetical.
